## SUMMARY

Detail-oriented and innovative Frontend Engineer with 2+ years of experience designing, developing, and optimizing responsive, user-centric web applications. Proficient in modern JavaScript frameworks such as React.js, Vue.js, and Angular, with a solid foundation in HTML, CSS, and TypeScript. Skilled at translating UI/UX designs into high-quality code and enhancing performance across devices and browsers. Adept at collaborating cross-functionally with designers, product managers, and backend developers to deliver seamless user experiences. Passionate about clean code, accessibility, and continuous learning in fast-paced environments.

## WORK EXPERIENCE

### MARUSOFT TECHNOLOGY

Frontend Development

jun 2024 - Present

- Developed and maintained scalable, responsive user interfaces using **React.js**, **TypeScript**, and **Redux**, improving load times and user experience across platforms.
- Collaborated closely with product managers and designers to transform Figma wireframes into functional, pixel-perfect interfaces.
- Implemented modern frontend architecture patterns including lazy loading, code splitting, and component reusability.
- Led performance optimization initiatives, reducing bundle size by 35% and improving Lighthouse scores across all pages.

### MARUSOFT TECHNOLOGY

Frontent Engineer

Present

## EDUCATION

### Marusoft Technology

frontend development

jun 2024

- Currently enrolled in an intensive Frontend Development program at Marusoft Technology, a tech training institute focused on real-world digital skills.
- Gaining hands-on experience in HTML, CSS, JavaScript, and modern frontend frameworks.
- Learning responsive design, UI/UX fundamentals, Git version control, and project-based collaboration.
- Building a solid foundation for web development through practical training and industry-aligned mentorship.

## PROJECTS

**Description:**

*Bistro Bliss* is a modern, responsive food website designed to showcase a restaurant's offerings in a visually appealing and user-friendly way. The project features clean layouts, vibrant images, and interactive elements to engage visitors and encourage online ordering or reservations.

**Key Features:**

- **Home Page** with a full-width hero section, featured dishes, and welcome message
- **Menu Page** organized by categories (starters, main dishes, desserts, etc.) with images and pricing
- **Contact Section** with a functional contact form and embedded Google Maps (if included)
- Fully **responsive design** that adapts across mobile, tablet, and desktop screens
- **Smooth animations**, hover effects, and interactive buttons built with CSS and JavaScript

**SKILLS**

HTML, CSS, JAVASCRIPT, GIT,  
REACTJS, NEXTJS, MongoDB,  
PostgreSQL, Tailwindcss
